## **General Perceptions of Draft**

- Represents a healthy summary of Downtown's current needs and tomorrow's goals (i.e., where Downtown is today and where it should be in the future.)
- Presents a sound and broad-based development strategy for "Downtown" (i.e., private and public interests) to pursue.
- Reflects the interdependencies among the numerous constituencies that make up the Downtown community and their need to work together to make the Plan successful.
- Recognizes the ***long term*** nature of the Downtown's future and how the Downtown Master Plan's concepts and proposal will continue to evolve and grow over time.
- Expresses the community's support for and belief in the idea that a growing city must have a strong and vital Downtown to be successful.
